## About This Game

A girl with a big SWORD is a hardcore JRPG, in which you have to play ... for a girl with a big SWORD!

There is a brutal war between the upper and lower worlds. Powerful demons came together with an army of people. On the battlefield, blood is spilled daily, coloring the rivers in red. Demonic contamination affects the soil. But meanwhile, on the outskirts, in the villages, thieves, *dwarfs and assassins* took advantage of the situation and began to commit outrage. Izumi is the most skilled swordsmith in the kingdom of Irischold. After a fierce battle with the archdemon, she wounded and exhausted comes to the nearest village for supplies. In the village, all residents are under the oppression of thieves dwarfs and ask Izumi for help.

Girl with a big SWORD is one of a kind game, as the main character your duty is to solve the problems of a tormented town by accepting and fulfilling the requests of many of the unique and memorable NPCs in town.

Pros:

- NPCs won't repeat their dialogues and some may even disappear forever after talking to them, which makes a challenge to your memory abilities
- Upon entering homes you'll be facing an enemy while you're at 1 HP, to prove your survival skills
- World maps have at most one other area to explore, once you find it after going around it for like 30 minutes you'll feel a sense of accomplishment
- Some texts are written in broken English and even some others remain untranslated to give out that natural foreign world language experience
- Despite the title stating that the girl has a big SWORD she starts out with none, being this a metaphor that the sword was the adventures we lived through the game.

Cons:

- Needs more bare naked tiddy
